

K-LOVE radion station, or 94.3 is a refreshing option in Chicago radio. I have found K-Love to be helpful in knowing what Christian community events are happening in the Chicagoland area - information I would not have access to without this radio station.

K-love plays such an important role in this city and in encouraging Christians in their walk with God. It will be a very big disappointment and I know my friends and I will definitely feel the loss if this radio station which has provided much entertainment, encouragement, truth, and joy goes off the air. Music speaks volumes and without K-love in Chicago, the message of Christ and His love will be greatly stifled to those who need to hear it.

With all the sexually-explicit, angry, and violent content that is in our media today, to take away an organization such as K-love that encourages love, peace and hope to our society is unthinkable. This radio station must be allowed to continue its service to our community and to the world. Please do not pull the plug on this radio station.

Thank you.
